

The tiberina valley is a district between Umbria and Tuscany where history, nature and traditions have started a unique ecosystem, still relatively undamaged.

It's possible to visit castles, hermitages, parish churches, Middle Ages and cities of art disseminate in this valley, crossed by the river Tevere, edged by gentle hills.

Route E 45 exit to San Giustino

Go ahead to Roma - Perugia - Città di Castello

after 2500 m circa follow the sign Agriturismo Ca' Matra

where we are...

## CA' MATRA

Ca' Matra is located at the feet of the umbro-tuscan Appenine, where once resided the Plinio's Villa.

Around the original structure of the lombard tower, a defensive bulwark of the XII century, during the years, the current rural residence have been established.

## Agriturismo

The farmhouse and the outbuildings, recently restructured keeping the original materials, has been used as agriturismo, divided in different apartments and furnished rooms with simplicity and with respect to the rural tradition.

It is also available a big salon for the didactic, cultural and leisure activities.

Special attention has been reserved to the **rose garden**, a blaze of colour and perfumes, and to the family fruit garden, where different species of endangered fruit plants are grown.

The big **swimming pool**, made in a corner of the garden and totally dipped in the natural view, offers a unique point of view on the Tiberina Valley.

## THE FARM BUSINESS

the farm business of Ca' Matra basically produces cereals and forage.

The vineyard, the orchard, and the garden are grown with the biological system and are the excellence of the agricultural production. From the grechetto vineyard, is obtained an excellent pure wine IGT, (Grechetto Ca' Matra) and the passito typical of the Valtiberina enological tradition.

## YOU CAN TASTE...

wine, vegetables, winegare, fruits, marmelades made in the agriturismo
